## PRODUCTS OR MACHINERY

Our company profile comprises project planning, construction design and manufacture of special machines and industrial installations – assembly, handling and testing technology. We are a complete supplier, which means our services range from mechanical design, electrical design, programme design, mechanical and electrical assembly/installation through to setting-up operation. Our machines and installations range from simple assembly devices, manual assembly working stations through to fully-automated, computer-controlled assembly systems. Besides new plants and plant rebuilds, overhauling and extensions as well as relocations/conversions of assembly machines and plants form part of our market-driven product spectrum.
