PRODUCTS OR MACHINERY

EPV offers several varieties of thin film modules based upon proprietary manufacturing technology with specially designed equipment for the production of quality, low cost, modules. The modules are ideal for rooftop, freestanding and building integrated (BIPV) applications. EPV modules can be found in numerous installations such as 4 Times Square, Philadelphia school of the future, Sacramento Municipal Utility District, to name a few. Our scientists and engineers have experience with the design and construction of fourteen thin-film PV manufacturing facilities. EPV's research and development efforts include Copper Indium Gallium Diselenide ("CIGS") technology and nano-crystalline silicon ("n-Si") technology.

Company Profile of **EPV SOLAR, Inc.**
