Address	PRAMAC SWISS S.A. Regional head office for EcoPower Division Via Campagna 19 6595 Riazino
Country	Switzerland

PRODUCTS OR MACHINERY

PRAMAC group develops and manufactures a wide range of power generation equipment, materials handling equipment and photovoltaic components. PRAMAC uses its global network to supply these products to markets throughout the World.

PRAMAC Ecopower produces and markets "renewable energy" through the manufacturing of photovoltaic modules and components. The manufacturing process is deeply monitored and checked, in order to offer efficient, reliable and safe products.

PRAMAC Ecopower produces and markets these types of photovoltaic module:

Monocrystalline Silicon Module

Maximum conductivity and high efficiency, a suitable solution for small home installation.

Multicrystalline Silicon Module

Suitable for domestic installation, looking for cost saving without affecting performance.

Amorphous Silicon Module

Produced for architectural integration and suitable for usage on medium-large sized photovoltaic plants.

Micromorph Silicon Module

This technology can absorb even that portion of light that is not visible to the human eye (infrared). Even more efficient. Perfectly suited to use as apartment windows, or for any kind of architectural integrated.

PRAMAC Ecopower product range is completed with a choice of Inverter for residential or industrial plants as well as "ground installations".

Company Profile of **PRAMAC SWISS S.A.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
