## PRODUCTS OR MACHINERY

Hellas Solar power is concerned with introducing Photovoltaics, considered the most advanced and environmental benign power generation technology today, to Greece. We focus on grid-connected Photovoltaic systems which feed the generated electricity directly into the power grid.

Greece promises to be an economically highly attractive market for grid-connected PV systems, given the unique combination of high solar irradiation values and an exceptional feed in tariff.

HELLAS SOLAR POWER serves its customers with in three business fields:

- Full service, turn key grid-connected PV systems
- PV online shop: sales of standard PV components and standard PV systems
- Development of customized grid-connected PV power plants in cooperation with partners
