PRODUCTS OR MACHINERY

Immo Industry Group (IIG) develops tailor-made industrial real estate in Europe, as a stand-alone project or in an industrial park. We understand your industrial activities and meet your specific requirements in any kind of logistics and/or industrial process facility. IIG takes full responsibility from the design to the hand-over of an operational building, offering off- and on-balance financial possibilities.

Three associated branches have been established to complete our services. We offer Facility and Property Management (IIFPM) for all of our projects. Throughout the project timeline, consultancy on the optimisation of logistics and process activities can be provided by Immo Industry Logistics and Process Solutions (IILPS). Via Immo Industry Contracting (IIC), we are able to control the complete construction process.

Company Profile of Immo Industry Group (IIG)

A service of glasssglobal.com, an affiliate of glasssglobal group.
