## PRODUCTS OR MACHINERY

The quality policy of China Quality Certification Center (CQC) is independence and impartiality, standard and precise, high quality and efficiency, providing satisfied services for the applicants.

The quality objective of China Quality Certification Center (CQC) is to win the confidence of applicants with high quality and efficient working style, integrated and consistent working level; maintain the national-leading status all the time in the field of certification; ascending into the queue of well-known international certification bodies.

China Quality Certification Center (CQC for short) is the specialized certification body authorized by some related governmental departments.

CQC with its branches established in the domestic and abroad is the body of earlier conducting quality certification activities and the more authoritative certification body in China. For several decades, we have accumulated a great deal of working experience for international quality certification with the outstanding results of all kinds of certification services. The number of applicants for certification of CQC topped China's certification bodies. At present, CQC has established 45 sub-branches in the internal and overseas and 180 contracted testing labs. It has also signed the working agreement with 14 foreign certification bodies for mutual-entrust certification. More than 5000 multi-discipline full time and part time auditors are engaged by this center. At some time, it has also a strong teaching staff. The service network throughout the whole country can offer timely, considerate and high quality services for clients.

CQC is the National Certification Body of China in IECCE ?CB Scheme, and is also the member of IQNet. CQC has being developed mutual recognition and comprehensive exchange with many good overseas certification bodies, and that brought great reputation to CQC

CQC takes high quality service, strong technical capability and advanced managing level to ensure its development, and provides strong safeguard to successfully achieve the quality objective of CQC, and shape the brand of CQC as well-know certification body at home and abroad.
