## PRODUCTS OR MACHINERY

Do you know our new one already? Technoplus Drillmaster  
....the practical helper for professional glass working!

our new glass manufacturing machine

### **Newly developed/highlight!**

Persistent glass working from one side  
Technical data:

Measurement WxTxH: 200cm x 100cm x 240 cm  
Weight: 2000kg  
Bore diameter: as needed by CNC control unit  
Cutout: as needed by CNC control unit  
Movement: all via actuator  
Rotation speed of the milling spindle: 0-15000 rpm  
Glass size: from 3-25mm  
Processing height: up to 1300 mm (bigger glass can be used since the machine is open on top)  
Edge working: milling, curves...(by the use of different tool geometry)  
Tools: 3 pc hollow drill with special geometry for one-sided working (drilling, milling etc. with only one tool)

#### Advantages:

Little space requirement due to vertical built  
Flexible and rational working due to one-sided glass processing  
Little amount of tools and tool exchange needed  
Automatic positioning of the glass  
User friendly input via touchpanel  
Due to modular construction the machine may be extended anytime

CAD/CAM system  
Network compatibility and data exchange with external processor  
Extension modulus 1000mm or 2000mm, right/left  
Extension modulus 2000mm, with precision drive mechanism or as a pulley modulus  
Build your own DRILLMASTER with us!

The customer's benefit is our priority. That's why all our machines are matched and realised with our customer's needs. So your ideas and wishes are put directly into our plans and we will get the most cost average effect for you.

#### Advantages:

Designed by your applications  
Applied, process optimizing and cost efficient  
Different adaptations are possible  
Modular and designed for your needs
