PRODUCTS OR MACHINERY

Established in 1996, Beijing Mingdun is professionally engaged in the manufacture of high quality products for anti-terrorism, anti burglary, and protection from natural disasters such as hurricanes and seismic activity. Our products can be made to meet a number of international standards including all levels of UL752 and all of European EN1063. Based on our customer's specifications, and with the use of our special module technology, we can create any kind of curved surface our customers desire

Backed by our own patents and self-made machines, Beijing Mingdun proudly leads the field to manufacture tempered glass, toughened glass, laminated glass, composited glass, insulated safety glass, heating glass, ballistic-resistant glass, explosion-proof glass, forced entry security glass, heat bending glass with complex curved surface. All the products meet or even exceed requirements of applicable industrial standards, national standards and international standards
