Address	<b>VidurSolar</b> C/ Gall, 46-48 08950 Esplugues de Llobregat Barcelona
Country	Spain

## PRODUCTS OR MACHINERY

VidurSolar glass-glass photovoltaic (PV) modules represent an innovative element for building integrated photovoltaics (BIPV). They have been designed as high-tech construction elements substituting other traditional construction elements and taking over the same functions as for security, solar protection, thermal and acoustic insulation, while generating at the same time electrical power.

VidurSolar PV elements add an innovative, aesthetic and ecologic component to architectural projects.

VidurSolar offers customized solutions for an innovative architecture with a broad range of possibilities in product finishes, forms and colours.

### Company Profile of **VidurSolar**

A service of glasssglobal.com, an affiliate of glasssglobal group.
