PRODUCTS OR MACHINERY

For 16 years now, ADITECH has been equipping mobile and stationary passenger information systems in railway stations, airports and public means of transport with LCD technology. The products include large size displays for trains, buses and metros as well as for railway stations, airports, parking guidance and traffic control systems. Display panels in stadiums and sports halls or driver's cab displays in construction and agricultural machines are also among the products supplied by the company. The latest innovative step contents Zero Power Display and sunlight readable screens. There is no backlight they are maintenance free for many years. Beside of manufacturing LCD components ADITECH's FCOG process is offered as a special service to several partners.
