PRODUCTS OR MACHINERY

Our competences are the development, design, production, delivery, assembly and startup of gluing and automation technology for solar industry e.g. for wafer prefabrication or solar module production. That includes both complete and partial solutions for production lines e.g. material supply, control cabinet finishing, software and robot solutions. Furthermore we can offer you also the technical service of the plants after start of production. We have experiences in the realisation of projects for well-known companies of solar industry. For 10 years the ATN Hölzel GmbH has been manufacturing also gluing and automation technology for automotive industry. Moreover we have been producing CHPs since one year.
