Address	Auria Solar Co., Ltd. No. 9, Daye 1st Road, Tainan Science Park, Sinshih Township Tainan Tainan 74146
Country	Taiwan, R.O.C.

PRODUCTS OR MACHINERY

AURIA Solar was founded in Oct. 2007, a pure manufacturer of Micromorph (Tandem cell with Amorphous plus Microcrystalline) panels, using Oerlikon's turnkey production facilities. AURIA aims to provide not only the environment friendly solar PV modules also the technical support, cost competitive products and reliable solutions for our valued customers. AURIA engages in becoming a world-class silicon-based thin film solar module manufacturer for grid-parity. AURIA makes 1.1m x 1.3 m panels and currently sells Micromorph modules to system integrators and the utility in Germany, Spain, France, Italy, U.S. and so on. Up to date, Auria has been capable of manufacturing Micromorph thin film modules with an average output power between 115W and 120W in our commercial production scale. In the meantime, AURIA is currently running the largest single production line of Micromorph thin film modules around the world, up to 60MW in total. In the next three years, AURIA plans to expand total capacity to 200MW, 350MW, and 500MW by the end of 2009, 2010, and 2011 respectively, whereas AURIA expects its Micromorph modules to reach efficiency of 9% and 10% by the end of 2009 and 2010 separately.
