PRODUCTS OR MACHINERY

BeyondPV Co. Ltd is a leading foundry specializing in the manufacture of thin-film solar modules with high conversion efficiency of the photovoltaic (PV) effect. The solar cell technology is a great benefit to power generation among all the methods of the renewable energy. Currently BeyondPV is dedicated to the thin-film silicon PV modules with state-of-the-art tandem cell technologies. We receive a great deal of positive feedback from our customers, including the worldwide module distributors and photovoltaic system installers. BeyondPV is capable of manufacturing the products suitable for the stand-alone systems, the power farm systems, and the building integrated photovoltaic (BIPV) systems. Our foundry is located in Tainan Industrial Technology Park in Taiwan. With cutting-edge technologies of different types of thin-film solar cells, our production capacity can reach 40MW in 2010 and more diversified products will be available for different commercial applications as well.
