PRODUCTS OR MACHINERY

Comco manufactures micro-abrasive blasting equipment that is used in the solar industry to texture or clean delicate wafers. Micro-abrasive blasting offers the control necessary to process parts effectively without the risk of damaging the underlying substrates. Established in 1968, Comco's innovative thinking and high quality standards have been key to Comco's success. Comco prides itself on its high quality products and excellent customer service and tech support. Micro-abrasive blasters are also used for deburring, surface preparation, selective cleaning, material removal and focused cutting. For more information about Comco visit: www.comcoinc.com.
