Address	<b>SolarWall Europe Sarl.(Conserval Engineering)</b> 66 Avenue des Champs Elysees 75008 Paris Frankreich
Country	France

## PRODUCTS OR MACHINERY

SolarWall®; Fastest Solar Payback on the Planet The SolarWall® technology delivers one of the fastest paybacks on capital investment in a solar technology. It is a solar air system that heats or cools air for commercial, industrial, institutional and agricultural buildings, as well as for crop drying and manufacturing process applications. With clients on 5-continent and over 30-countries, SolarWall is the world leader in solar air heating. -Low-cost, longevity and huge energy displacement are the hallmark's of a SolarWall system. -All in a building integrated, custom engineered solution. In fact, independent monitoring reports have shown that a SolarWall® systems can displace up to 50% of buildings heating fuel consumption. Here's what our clients say: <http://solarwall.com/en/testimonials.php> SolarWall can improve PV electrical efficiency by taking away the heat! Our PV/T pairs SolarWall with PV to produce 3-4 times the net energy per m2 for 15-20% additional cost. In addition, we cool the PV module by up to 10%. Solarwall is also available in a modular rooftop system called SolarDuctTM (for solar air heating) or SolarDuct PV/TTM (for electricity and solar air heating) in which the SolarWall® system acts a low-cost racking system for the PV. SolarWall Europe Sarl., a division of Conserval Engineering, is headquartered in Paris, France. Conserval Engineering is a Canadian engineering company who invented the SolarWall® technology and has been delivering custom engineered renewable energy solutions for the past 32-years to clients in 30 countries on 5-continent. Our clients include private and public sector organizations like Auchan, Prologis, Bombardier, Boeing, NASA, FORD, Wal-Mart, FedEx, Jaguar / LandRover, the U.S. & Canadian Military and various governments around the world.

### Company Profile of **SolarWall Europe Sarl.(Conserval Engineering)**
