Address	Control Techniques GmbH Meysstraße 20 53773 Hennef
Country	Germany

PRODUCTS OR MACHINERY

Control Techniques, a company of Emerson, has become a global 'no compromise' specialist in electronic AC and DC variable speed drives and drive systems. We provide 'best practise' in photovoltaic energy schemes and drive applications through an international network of local Drive & Application Centres that acknowledge the special needs of individual markets and customers. Our skill are concentrated upon drive design, manufacture and 'in depth' application engineering to differentiate Control Techniques in the market. Our customers benefit from this 'no compromise' approach through low ownership costs and a potential lifetime relationship. Our goal is to ensure that our customers continue to reduce their manufacturing process and maintenance costs whilst improving their output quality through the precision and reliability of Control Techniques products.
