Address	Danfoss District Heating Omega 7, Soften 8382 Hinnerup
Country	Denmark

PRODUCTS OR MACHINERY

Danfoss District Heating - Solar Danfoss District Heating is the world largest producer of substations and controls for district heat-ing and related applications, and employs far more than 2.000 persons world wide. The activities – beside the traditional district heating business - range from applications for central heating, central cooling, biomass-applications to applications for solar energy. Applications for solar energy comprise a relatively new product line by Danfoss. The product range consists of prefabricated mechanical building kits: solar charging modules, instantaneous water heaters, etc. and other solutions for all solar applications for all kind of buildings. Danfoss' huge experience from related business areas forms the background for the solar energy applications. Danfoss products are well-known for their high quality level and with 75 years of experience in the heating and cooling business, Danfoss offers customers the security to deal with a solid global company.
