PRODUCTS OR MACHINERY

From ingots to ready-made solar power modules: DCH Solar! DCH Solar covers the whole production chain from the ingot production through ready-made solar power modules. DCH Solar starts in the value added chain directly behind the wafer production of Beijing DCH Energy Technology Co., LTD. Together with our partner Solargiga Energy Holdings LTD., a listed manufacturer of ingots and silicon wafers, DCH Solar is able to provide guarantee the highest quality of the silicon wafers. Our Wafers are a synonym for the highest quality for the majority of the big solar companies in China. In the past we have used these synergies exclusively for OEM products. The brand DCH Solar is the logical improvement of successful solar systems and is now being established on the European market. The newly founded DCH Solar GmbH with headquarters in Berlin has been set up for European distribution. Obvious advantages for the customers in Europe are evident, as customers are now able to communicate in the same time and same language with the manufacturer. In addition customers enjoy support on site. All DCH products are safety-tested and equipped with corresponding certificates. These can be seen on our homepage and be downloaded shortly. Further, we would like to note that we maintain a logistics centre in Germany which means extremely short delivery times and realizes customer-friendly payment conditions without any currency risk.
