PRODUCTS OR MACHINERY

Energetica was formed in 1995 in Carinthia/Austria by Ing. René Battistutti. Core business is: - Production of Photovoltaic modules on highest quality level in Austria (since 2004) - Planning of photovoltaic plants - Mounting of photovoltaic plants in all power classes - Development of mounting- and tracking systems -

Energetica is operating in Austria, Slovenia, Germany, Italy, Spain, Czech Republic and Greece. Competent employees, high-quality materials, precision, continuous innovations and excellent customer service are the success of the Energetica-group

Energetica-modules „made in Austria“ · Ease of assembly, high efficiency, long life-time and precision in production characterise our photovoltaic modules. Mono- and polycrystalline cells have an antireflex coating, which is responsible for an ideal energy output. A double chamber aluminium frame offers additional stability. The integrated high transmittivity, bevelled safety glass reduces light reflection and enables highest output. Completely with junction-box, cable and connectors. Energetica-photovoltaic modules are certificated under the valid European and international requirement IEC 61215:2005 and meet safety class II. Energetica-photovoltaic modules are available from 50 to 250W. - low power tolerances

Company Profile of **Energetica Energietechnik GmbH**

A service of glasssglobal.com, an affiliate of glasssglobal group.
