Address	Enwi-Etec GmbH Scherrwies 2 84329 Rogglfing
Country	Germany

PRODUCTS OR MACHINERY

In our business area generator connection boxes we offer among others standard collecting solutions with and without disconnectors and/or overvoltage protection. We also offer individual solutions with string current measurement device and string fuse for protecting cables used in indoor and outdoor concepts for plants of any size.

The different types of generator connection boxes serve as unit for collecting individual string cables in PV plants.

Beside our standard repertory of generator connection boxes we also calculate, project and manufacture customized solutions according to the dimension and the power of the PV-installation.

EnWi is your partner for the complete connection technology of PV power plants. We offer ready-for-use, pre-assembled and coordinated solutions for nearly all types of strings and central inverters. Completely installed monitoring systems give guarantee for a rapid integration into any monitoring-portal and makes management easier. Costs for Installation on field and Total-Costs will be optimized.

In addition, we offer our customers, installation- and service- work.

Due to our long standing experience and nearness to the market, we are a valuable service provider and trading partner for our customers.
