PRODUCTS OR MACHINERY

Fat Spaniel Technologies, Inc. is the leading independent provider of management and information services to the renewable energy industry. Solar power producers, financiers, system integrators, and OEMs take advantage of Fat Spaniel's Internet-based software service to increase energy output, reduce operations and maintenance costs, contain risk, and increase the return on investment of renewable energy projects. Fat Spaniel is a trusted third-party monitoring service provider that enables remote plant diagnostics and maintenance; revenue-grade data for billing, REC trading, and performance-based incentive collection; and a compelling platform for energy visualization. Fat Spaniel solutions are deployed in 20 countries and over 2,200 locations across the globe. With our partners and customers, we share the vision of a world where renewable energy is the first and best energy source. For more information about our company, please visit our website at www.fatspaniel.com.
