PRODUCTS OR MACHINERY

General Solar Power (Yantai) Co., LTD. is a solar energy company at the forefront of the design, production and distribution of innovative solar energy solutions for a wide variety of customers and applications. We are developing technologies that drive down the cost of solar energy, making it a sustainable alternative to conventional energy sources and strive to become the industry leader in quality, technology and cost. Our first factory, in Yantai, Shandong, China, performs the role of vanguard for achieving such goals. It consists of the most skilled teams in all aspects, including Product Development, R&D, and everything desired in the photovoltaic industry. We plan to develop cutting-edge, state-of-the-art technology through higher efficiency, lower equipment cost and higher production capacity. We also plan on expanding by building more factories and installing cost effective equipment to meet the growing demand for clean, renewable and affordable energy on a global basis. Our vision is to be the most reputable, advanced and efficient thin-film PV module manufacturer and service provider, and in partnership with up-and-downstream stakeholders, to forge a powerful competitive force in the solar power industry. In order to fulfill our goals, we plan on: • Assemble world class management and operation team in PV industry • Leverage existing best industry practices to ramp up operation efficiency and system optimization • Establish leading position with premium quality, state-of-the-art technology and competitive pricing • Focus on R&D to develop best proprietary technologies and engineering processes • Explore vertical integration opportunities in the solar power industry
