PRODUCTS OR MACHINERY

Jiangsu PreferSolar is solely founded by US investor to focus on the research and development of solar energy and to manufacture high quality photovoltaic modules. PreferSolar has its 20 million US dollars factory facilities located in Yangzhong City's Xinba Technical Area, Jiangsu Province, China. It covers an area of about 35,000 square meters. The production capacity will reach 100 mega watts and the export revenue is expected to reach 450 million U.S. dollars in the end of 2009. The modules are exported to Europe and the United States of America. At PreferSolar, we are committed to delivering affordable, high-quality solar energy systems. Our experienced professional team member will do any way to promote your success!
