PRODUCTS OR MACHINERY

KATORAM® provides sector specific solutions and safety concepts for objects of all kind that are offered as SystemSolutions. SystemSolutions are integrated solutions for different risk profiles that are created from a fitting combination of intelligent individual solutions. KATORAM® offers SystemSolutions for different sectors using the following components: • Digital fence sensor system INTREPID™ MicroPoint™ • Digital ground sensor system INTREPID™ MicroTrack™ • Video technology • Microwaves • Active RFID • Satellite communication • Security foil for glazing KATORAM® also offers far reaching consulting services that follow a specific structure: - Protection goal: What do I want to protect? - Threat analysis: What do I have to protect myself from? - Security measures: How do I protect myself and my assets? Upon request KATORAM® specialists can test the functionality in case your solar power plant already have security technology installed. We are happy to provide you with our extensive list of references during a personal meeting. Please understand that these reference projects can only be named after consultation with our customers.
