PRODUCTS OR MACHINERY

Laing GmbH is a family owned company, meanwhile in the second generation, located in the southern part of Germany with facilities in the US, Japan, Hungary and Germany. The production range includes circulators and products for the heating sector (heat exchangers and mixing modules for the floor heating connection, electric heaters and OEM-products). Laing pumps use the spherical motor principle, which is very blockage resistant and has additional advantages compared with conventional pumps with a shaft. The product range for pumps consist of domestic hot water pumps, heating circulators, solar pumps, DC-pumps and condensate pumps. All pumps have an energy saving ECM/permanent magnet motor.
