PRODUCTS OR MACHINERY

LASAG, a leading manufacturer of industrial Nd:YAG lasers for material processing, is a world-wide operating company with production in Switzerland and offices in USA, Germany, Japan and Italy. We are a company within The SWATCH Group Ltd., a Swiss conglomerate for microelectronics and watch industry. At LASAG, we manufacture precision, highly-reliable and user-friendly pulsed Nd:YAG lasers with average power from 10 to 1000 watts, beam deliveries (conventional and fiber optic) and relevant processing heads. As a pioneer in the industrial laser market we offer over 30 years of experience. Our lasers are primarily used for Precision Cutting, Welding, Drilling, and Ablating of metals and other materials. The application possibilities are very diverse. LASAG has sold numerous industrial solutions for industries such as the Solar Industries, Power Generation and others. LASAG has earned a reputation as a world leader in the laser industry due to our application knowledge, the quality of our products and the support and service we provide. We look forward to becoming your laser partner.
