## PRODUCTS OR MACHINERY

OF SOLAR has developed the first ever high efficiency color solar cell in the world. Our conversion efficiency is 30% higher than the competitor's products. Our C-Cell™ are now available in green, purple, red, gray, and etc.

With LOF's patented nano technology, the C-Cell™ conversion efficiency can reach beyond 15%, recently confirmed by the Fraunhofer ISE (Institute for Solar Energy) in Germany. And their life time is comparable to the traditional blue solar cells, easily passing 25 years.

### Company Profile of **LOF Solar Corporation**
