## PRODUCTS OR MACHINERY

Odersun AG is a manufacturer of silicon free thin-film solar cells, modules and applications that convert sunlight into electricity. Our innovative products combine functionality and design offering economical solutions for the global use of solar energy. Using copper instead of expensive silicon, we produce cost efficient standard modules for solar parks and roof-mounted systems, as well as customised solutions for buildings. The novel and world wide patented CISCuT production process enables Odersun to produce modules in virtually any size or any power.
