## PRODUCTS OR MACHINERY

Founded in 1988, today Paradigma is one of the leading system providers of regenerative heating technology for single-family homes and semidetached houses. With innovative condensing gas boiler systems, wood pellet systems and solar heating systems, we enable people to heat more cost-effectively and most of all, in a more environmentally friendly manner. In this way, we make a real contribution to freedom from high fuel and energy costs. Our aim is to be the avant-garde and technological innovation leader in regenerative heating systems.
