PRODUCTS OR MACHINERY

Founded in 1964, the family business PAW GmbH & Co. KG established at the market as an innovative company in the field of heating and solar technology. The product range of solar installations involves not only solar stations and solar transfer stations but also domestic hot water modules. The range of heating installations offers modular heating circuits dimensioned from DN 20 up to DN 50. The heating installations cover a power spectrum up to 400 kW. The Pied Piper town Hameln is our production site with a shop floor of 17,000 square metres. According to the slogan "Innovative system technology for modern heating and solar thermal systems" we deliver the pump groups all over the world.
