## PRODUCTS OR MACHINERY

Photovoltaics International is a dynamic new media platform that is designed to give real-world manufacturing information to decision makers and implementers responsible for producing solar cells, modules and thin films. Photovoltaics International independently collects and disseminates news and in-depth technical information exclusively for PV manufacturers through its website PV-Tech.

With over twelve years covering technical manufacturing for the Semiconductor Industry, the publishers of Photovoltaics International are uniquely placed to use their editorial expertise to create a much-needed and worthwhile resource for PV manufacturers to help them implement technology that will achieve price and yield goals now and in the future.
