Address	Ralos Solarstraßenbeleuchtung Unterer Hammer 3 64720 Michelstadt
Country	Germany

PRODUCTS OR MACHINERY

STREETSUN is a solar-powered street light that is mainly used for the illumination of B-roads, car parks, footpaths, golf courses and hotels. Street lighting accounts for up to 50% of the total electrical power supply in many municipalities and cities. Not only is this very expensive, but it also has a negative impact on the environment. STREETSUN is especially suitable for areas without an overall power supply coverage, because no trenching and wiring is required to install the luminaires. When it comes to cost efficiency and environmental sustainability, STREETSUN is the perfect solution, as it generates its power exclusively from the sun and therefore the costs of maintenance are minimal.

Company Profile of **Ralos Solarstraßenbeleuchtung**

A service of glasssglobal.com, an affiliate of glasssglobal group.
