## PRODUCTS OR MACHINERY

Products Albatros Group, with more than 26 years of technological innovation, has managed to be one of the most important companies of the world dedicated to the design, manufacturing and services of different electronic components (focused on the railway sector), with special mention to its product line of Auxiliary Static Power Converters . Due to this experience and technological capability, we have decided to develop Inverters for the Photovoltaic sector, covering different ranges of power according to the needs of each customer and with the quality and service demanded in this market.

Company Profile of **SEPSA Electronica de Potencia S.L.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
