Address	<b>SolarEdge Technologies</b> 5930 E Royal Lane Suite 120 Dallas TX 75230
Country	USA
State	Texas

## PRODUCTS OR MACHINERY

SolarEdge Technologies will debut its distributed power harvesting system that effectively removes the limitations of traditional PV systems. Our Smart DC technology enables increased production of clean, grid-ready energy at a lower cost per watt than any other competitive offering. SolarEdge technology marries traditional methods of panel-driven solar energy with a groundbreaking holistic system approach. It is a quiet revolution that is at once disruptive because of its profound benefits in changing the manner in which energy is harvested, deployed, managed and delivered and complementary because it fits into the current photovoltaic workflow. We believe the PV delivery chain is ultimately only as strong as its weakest link. By adopting a "system first" philosophy that identifies and eliminates the Achilles heel in each step in the process, we enable a constraint-free delivery of sun harvested energy.

### Company Profile of **SolarEdge Technologies**
