## PRODUCTS OR MACHINERY

The company Solarzentrum Allgäu is a leading provider of photovoltaik technology. Our range of products include highly productive photovoltaik modules and the combination module PV-Therm. The B2B distributor WIOSUN is selling our products. The advantages of the combination module PV-Therm speak for themselves. Already at first sight you can see the completely new approach of the development of the module: The thermal water circulation on the back side of the solar cells ensures maximum photovoltaic current yields and enables a comprehensive application spectrum within the field of heating support.

### Company Profile of **Solarzentrum Allgäu GmbH & Co. KG**
