PRODUCTS OR MACHINERY

SPS Solar is specialized in Silicon Thin Film Solar Modules: amorphous, tandem-amorphous, tandem-micromorph and triple amorphous technologies. As a result of our long-time intercontinental photovoltaic experience on various levels of PV-manufacturing and field application, our systems are technologically mature, our choice of products yield-optimised and designs trend-setting. Such, we also carry traditional mono- and polycrystalline modules from market leaders and provide on demand complete system integration for installers and investors.
