SUNGROW POWER SUPPLY CO., LTD, founded in 1997, is a company specialized in designing and manufacturing inverters of both photovoltaic (PV) systems and wind systems for different applications. We fully understand that the inverter is one of the key elements affecting the performance and energy yield of PV and wind systems. We, therefore, are engaging in research, develop, manufacture and market a wide range of high-quality inverters for the world. In order to achieve our goals, SUNGROW continues to look for ways to improve our services and technical capabilities to meet the needs of our clients and the markets. As the pollution problems caused by oil and coal becomes more and more worsen, the business of renewable energy industry becomes more important than ever. SUNGROW, as the Chinese leading specialist in the inverter technologies and materials, we are committed to research, develop and adopting international standards to manufacture the best quality products with unmatched performance at attractive prices.
