PRODUCTS OR MACHINERY

Based on more than ten years of successful and creative experience in Solar Absorber Construction machines we have the potential to continue applied innovative solutions in that specialized field of industrial applications. We are proud to be one of the first constructors within this industry. According our corporate philosophy we steadily develop our products in order to fit them to the customer's demands and needs. Since the customer's needs are not always obvious, sometimes not even known to the customer himself, we offer an essential presales service. During the presales negotiations both, the customer and our company achieve benefits. The customer has a better spherical idea about his project, the ability to judge about his real needs and demands and Sunrise has to meet and pass another challenge. Every challenge gives us more experience and more chances to improve our innovative machines in order to set a new, higher state of the art. Highest standards are taken into consideration in every stage of production of our machines, from data collection up to the proper delivery, in order to satisfy, as a first step our need to keep our leading role in our sector. Every successful customer, who is satisfied and proud about his turn key ready solution constructed by sunrise is the best proof of our leading position in the solar absorber construction machines industry. We build machines that integrate the flexibility of modular design, high quality, sturdy construction and state of the art operation interface, without any leakage in safety and environment protection issues. As specialists we already formed a programm of Turn Key solutions that are already operating reliable and producing in installations allover the world. Our machines prove to be beneficial investments for our customers in Germany, Spain, Turkey, Mexico, USA, Greece, Russia and Cyprus and many other countries. Our specialization also ensures that we are capable to give reliable and productive solutions to your specific needs as well. To be honest, you will not get the cheapest machines of the world, but we guaranty the best, quickest return on assets combined with a minimized investment risk to your company.
