PRODUCTS OR MACHINERY

Vector Japan Co., Ltd., with its headquarters in Tokyo, has been actively engaged in the silicon material business for more than 3 years. We supply solar wafers 125mm and 156mm mono and 156mm multi wafers with high quality for both long term and spot market trading. In addition to solar wafers, we supply a variety of silicon materials such as IC Whole Wafers (with or without coating and pattern), IC Broken Wafers (with or without coating and pattern), Top and Tails from IC Ingots, Thick Wafers, Dummy Wafers, and Short Ingots for re-melt as solar grade feed stock. We also have solar broken wafers from wire saw machines with kerosene which can be used as feed stock as well. Additionally, we are capable of dealing in the IC Reclaim Wafers. Test wafers can be re-polished in accordance to your requirements. Our OEM products are designed and built with the best possible quality and care to end users and integrators alike. Our most reliable solar products offer many innovative solutions to customers at their needs. Currently we sell about 30 tons of a wide variety of materials combined every month.No more need to shop around. Let us become your one-stop supplier for solar materials and solar cells with unsurpassed quality, reliability, flexibility and pricing to meet your demanding solar product needs in the fast moving global marketplace.
