PRODUCTS OR MACHINERY

The vogt group SE bundles specialized expert knowledge covering all aspects of PV factory design and production process. Our proven professional expertise stands for high-quality services and outstanding cost efficiency. Being a leading service provider for the realization of custom-tailored factories in the PV industry we offer project management and engineering planning from a single source. From market and technology overview, equipment supplier & site selection and concept study, to project sketch, design, realization, retrofit and expansion – we realize your PV project in all technologies (Silicon wafer and Thin Film) available on the market. Selected references are: Q-Cells, Sovello, T-Solar, Sunfilm & Sontor. For the operation and optimization of PV production lines we provide cross-trained labor for ramp-up, service support and preventive maintenance, logistics support for materials, spares & consumables, processes & manufacturing optimization as well as consulting services.
