## PRODUCTS OR MACHINERY

The 17,000 different cross-sections designed and produced by the Welser Profile Group of Companies represent decades of success in the manufacturing of open and welded special profiles for every industrial sector that you can imagine. Welser Profile produce profiles optimised to their intended use for photovoltaic systems, offering innovative solutions for various frame profiles. Welser Profile produce bespoke sections made from steel, stainless steel and non-ferrous metals with material thicknesses ranging from 0.3mm up to 8mm and bandwidths of up to 800mm. In addition, Welser Profile offer competent advice, ongoing development and an individual service using innovative technologies such as laser cutting, bending and a range of welding, joining and bonding techniques. As an environmentally aware, ISO 14001 certified company, Welser Profile is making an active contribution to preserving the environment by using a photovoltaic roof system to cover part of its electricity requirement.
