PRODUCTS OR MACHINERY

The Primary Packaging Glass Division manufactures glass primary packaging products for pharmaceuticals and cosmetics such as pharmaceutical jars, ampoules, vials, cartridges, perfume flacons and cosmetic cream jars, as well as special glass packaging for the food and beverage industry.

We have an extensive range of glass primary packaging products for the pharmaceutical industry. It includes moulded glass products such as vials, dropper and syrup bottles in diverse market and needs-oriented designs. We also produce borosilicate tubing as the input material for our high quality specialty ampoules, vials and cartridges. As a result, we are able to offer an almost fully comprehensive range of transparent and amber glass for pharmaceutical packaging.

Our high quality glass packaging products for the cosmetics industry include bottles and jars for perfume, deodorant, skin care and wellness products. We use transparent, colored and opal glass to make our cosmetic packaging range, plus a comprehensive array of design, color, printing and exclusive finishing technologies.

We also produce standard and customized vials, bottles, jars and miniature spirit bottles for the food and beverage industry. Here, too, you can opt for amber, transparent, colored or opal glass in a diverse range of designs and with numerous refinement options.
