## PRODUCTS OR MACHINERY

We develop customized systems to defeat a variety of ballistic, forced entry and impact threats. And you won't have to compromise on visual clarity, color or dimensions. And because spalling – the spray of glass fragments at impact – can be as damaging as the threat the glass stopped, we offer a full line of lowspall and no-spall barriers for many applications.

### Company Profile of **PAS Incorporated**

A service of glasssglobal.com, an affiliate of glasssglobal group.
