Address	XeroCoat, Inc. 250 Chesapeake Drive Redwood City, CA 94063
Country	USA

PRODUCTS OR MACHINERY

Photovoltaic modules suffer from reduced conversion efficiency because reflections from the top surface of the solar module's protective glass reduce the light available to generate electricity. XeroCoat increases the conversion efficiency of solar modules without having to modify existing cell or module manufacturing methods.

At XeroCoat our goal is to make solar energy affordable for all. That means enabling you to get the most power out of the sun. Our high-performing anti-reflective coating maximizes the light available to be converted to electricity and offers a cost-effective way to increase energy output.

Company Profile of **XeroCoat, Inc.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
