PRODUCTS OR MACHINERY

PV Modules

Multicrystalline

Our highly efficient multicrystalline solar modules are manufactured according to the latest, technical and quality-oriented industrial manufacturing criteria. The solar modules with out-puts ranging from 190 to 210 Wp are supplied with aluminum frames and leading corner brackets. A Tyco connection socket is provided as standard. Only first-class solar modules leave our production line.

Customer benefits

- Manufacturing facility in Austria
- Incoming inspection of the cells, In-process and outgoing inspections of the modules
- Output verification (flash protocols) for each and every module
- Individual components from renowned suppliers

Special frame construction, extremely light and stable

Monocrystalline

Our highly efficient monocrystalline solar modules are manufactured according to the latest, technical and quality-oriented industrial production criteria. The solar modules with outputs ranging from 210 to 220 Wp are supplied with aluminum frames and leading corner brackets. A Tyco connection socket is provided as standard. Only first-class solar modules leave our production line.

Customer benefits

- Manufacturing facility in Austria
- Incoming inspection of the cells, in-process and outgoing inspections of the modules
- Output verification (flash protocols) for each and every module
- Individual components from renowned suppliers
- Special frame construction, extremely light and stable

Power Plants

For years, KIOTO has been successfully planning and constructing turn-key photovoltaic power plants in Spain, such as the "Macaël" project described. Today, we are also developing projects, among others, in Italy, Bulgaria, the Czech Republic, France and Greece.
