PRODUCTS OR MACHINERY

The new system PARTLIGHT® is an excellent solution to protect from the sunlight and that distinguishes itself for its visual impact.

It works easily, with a simple manual movement that allows to adjust the position of the blind inside the double glazing, through an external magnetic control.

This new patented product protects from the sunlight and allows a good quantity of natural light to enter inside the working room. The natural light is consequently better used in comparison with the traditional systems of light protection.
