PRODUCTS OR MACHINERY

Cogenra Solar provides solar cogeneration solutions that deliver five times the energy output of conventional photovoltaic (PV) systems, producing both solar hot water and low-cost electricity in a single module. Cogenra's propriety design combines the manufacturing scalability and proven 35+ year lifetime of silicon PV with concentrating optics, single-axis tracking and an innovative thermal transfer system in an integrated hybrid receiver.

Cogenra provides commercial, industrial and institutional customers with solar hot water and electricity under the industry's first Heat and Power Purchase Agreement (HPPA) and sells its SunBase® and SunDeck® solar cogeneration systems as turnkey installations via qualified installation partners.
