PRODUCTS OR MACHINERY

ReGenerator™ products are revolutionary clean-energy appliances that generate electricity on-site, at the point of use. Everything needed to create, store and manage energy is engineered within an all-in-one device that's easy to use and powerfully smart.

Designed to harness the sun, wind and existing power resources, ReGenerator products provide primary or back-up power—on or off-grid—without heat, noise or emissions. They're mobile, set up in minutes, require no fossil fuel and operate as energy management hubs anywhere power is needed—remote villages, mountaintops, city parks or suburban homes.

Company Profile of **ZeroBase Energy, LLC**

A service of glasssglobal.com, an affiliate of glasssglobal group.
