PRODUCTS OR MACHINERY

COLLECTOR AS

For applications when the solar collector does not have to act as watertight roofing, especially on flat roofs or for mounting in the field, Energie Solaire SA proposes the solar Collector 'AS', which is a pre-assembled version of the Solar Roof «AS».

This uncovered selective coated collector has a powder coated aluminium frame, which has been designed for easy and fast mounting with conventional solar panel fixing systems.

It is an ideal product for domestic hot water pre-heating, swimming pool heating and for all combined solar heatpump (HP) systems.

Company Profile of **ENERGIE SOLAIRE SA**
