PRODUCTS OR MACHINERY

Future solar is committed to customer's success. Future Solar produces and commercializes a wide variety of solar photovoltaic modules, with wide power range, from 5w to 305w and further customization. Our solar panels include normal crystalline panel, black frame panel, double glass or transparent back sheet panel as well as thin film panel.

We also provide clients the integrated solar system including panel, bracket, battery, inverter and many other accessories to simply clients' procurement works and sourcing cost.

Top quality and high performance of our products is through our world class manufacturing technology and experienced know-how.
